

***VLT*** ***FINS***

***2022***

# ***THE ESSENTIALS***

***We were born with the aim of winning races, we gave shape to our dreams thinking outside of any pre-established scheme obtaining a unique and performing product as only we Italians know how to do.***

***Whether you are a neophyte or a professional, we model your needs to allow you to express yourself at your best, since ...."the essential is invisible to the eyes".....***

# SUMMARY

**All-round-Touring**

**In-flatable**

**Touring-Race**

**Race-Pro**

# ***ALLROUND -TOURING***

***The fun***

# OSC series

## MISSION

- **Create stable and fast fins**
- **Create specific fins for each situation**
- **Absolute performance**
- **Maximum stability and ease of use**

## MATERIALS

- **High Teck Plastics**
- **Different Flex**

# ***EXPLORER***

**Extremely ductile and performing fin, made of Isotactic polypropylene is soft and resistant to accidental impacts.**

**Ideal for inflatable boards or schools, it improves the directionality of the board and makes it more precise.**

**Measures 17 x 18,5 weight 130 gr.**

**Use Tables from 10.0" to 12.6"**

**Us box system**

# ***IF***

**Made with in mind for use on inflatable boards, thanks to its particular shape and flex it combines stability with an amazing speed. Excellent for Touring and advanced race and perfect on boards from 10.6 upwards to improve performance.**

**Measures 17 x 18,5 cm. Weight 125 gr.**

**I use boards from 10.0" to 14.0"**

**Us box system**

## ***OSC-2.2***

**Designed for maximum performance on rigid Race and Touring boards, thanks to its soft flex it significantly stabilizes the roll of the new narrow boards so as to allow the rider to concentrate on paddling.**

**Measures 17 x 18,5 cm weight 160 gr.**

**Available colors Green and Orange**

**Use of Boards from 11" to 14"**

**Us box system**

## ***RACE***

The highest possible performance

# Carbon Pro Series

## MISSION

- Meeting the needs of athletes
- Create specific fins for each situation
- Absolute speed and performance
- Maximum responsiveness and sensitivity
- Development with the Race Team
- No compromises

## MATERIALS

- High Teck Plastics
- Addition of Carbon to stiffen
- Finishes hand made racing department

## ***OSC-3.2 Carbon pro***

***Made of synthetic materials loaded with 40% Carbon, it is super rigid.***

***Designed for athletes who want maximum performance in down-wind with stable and sensitive fin. Matt finish and finished by hand in the racing department.***

***Measures 17 x 18.5 cm weight 165 gr.***

***Us box standard***

## ***F-22.2 Carbon pro***

**Uncompromising fin for those who want pure speed, multiple winners in Race flatwater. Made of hitech and carbon materials.**

**The obligatory choice if you want to be faster, super responsive hand-finished in our racing department.**

**Measures 17 x 17 cm. Weight 155 gr.**

**I use boards from 12.6" to 14"**

**Us box system**

## ***f-35.2 Carbon pro***

**Pinna Race designed for all-water conditions, with excellent performance with side-wind and chop. Made of synthetic materials and carbon. Stable and fast in turn and in the return in trim, finished by hand in our racing department.**

**Measures 17 x 17 cm. Weight 158 gr.**

**Us box system**

## ***S-21.2 Carbon pro***

**Pinna Race extremely versatile,  
excellent compromise in all situations.**

**Stable but also super fast.**

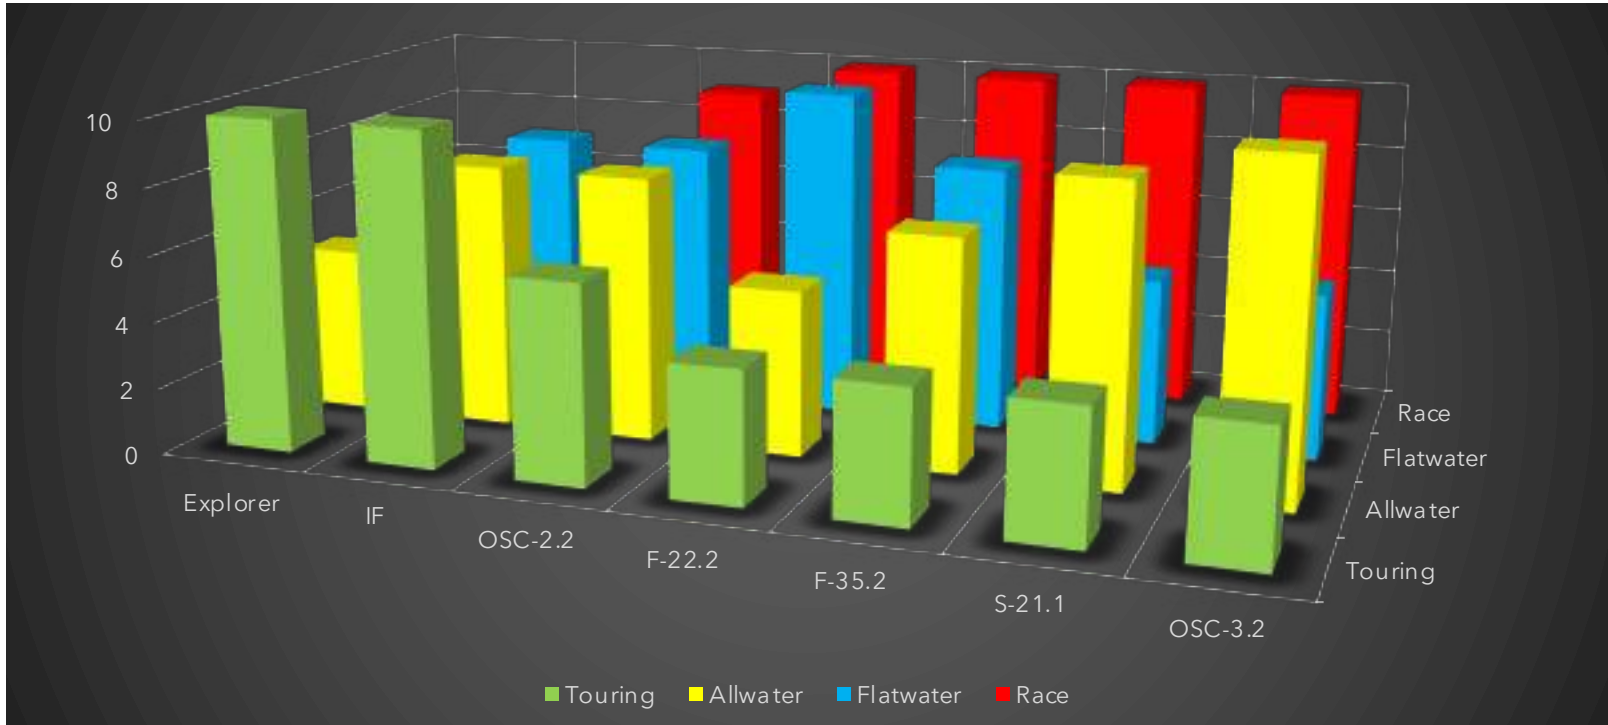

**Ideal for races with different conditions  
during the course.**

**Hand finishing in the racing  
department.**

**Measures 17 x 17,5 cm weight 156 gr.**

**Us box system**
